## **DMCA PROVISIONS**

The Digital Millennium Copyright Act of 1998, found at 17 U.S.C. 512 ("DMCA"), provides recourse for owners of copyrighted materials who believe that their rights under United States copyright law have been infringed upon on the Internet.

Under the DMCA, the bona fide owner of copyrighted materials who has a good faith belief that their copyright has been infringed may contact not only the person or entity infringing on their copyright, but may also contact the designated agent of an Internet service provider to report alleged infringements of their protected works, when such alleged infringements appear on pages contained within the system of the Internet service provider ("ISP").

The owner of this website and the ISP are committed to complying with international trade law, international trade practices, all United States laws, including United States copyright law. Upon receipt of a properly filed complaint under the DMCA, the owner and/or the ISP of this website will block access to the allegedly infringing material. The website owner and/or the ISP will forward a copy of the notification of

claimed copyright infringement to the alleged infringer. Anyone who believes in good faith that a notice of copyright infringement has wrongfully been filed against them, may submit a Counter notice to the website owner and/or the ISP.
